**JUNE 20th & 21st, 1986. NASCA will conduct a public and mail bid auction sale in conjunction with the International Paper Money Show, Memphis, Tennessee. Limited space is available for choice consignments. Call or write now!**

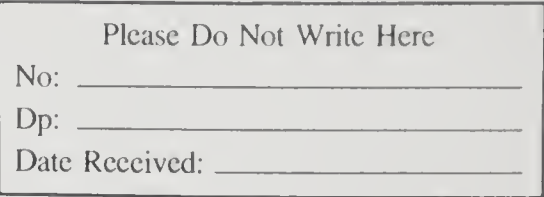

### TERMS OF SALE

- 1) A 10% buyers charge will be added to the hammer price of each lot purchased.
- 2) All bids are per lot as numbered in this catalog.
- 3) We reserve the right to withdraw any lot prior to sale.
- 4) All successful bidders shall be billed for postage, handling and insurance.
- 5) NASCA reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
- 6) A NASCA auction bidder expressly waves any claim or right to an accounting, damages or compensation arising out of NASCA's failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
- 7) United States coins and currency will not, in conformity with law, be opened at less than the face value.
- 8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
- 9) In the case of a tie between a mail bidder on the book and the floor, the mail bidder shall take precedence.
- 10) All bids must be in whole dollar amounts; this includes percentage increases.
- 11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.
- 12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
- 13) Payment for purchases is to be made in cash upon receipt of invoice: No lots may be taken away unless paid for in full. A late charge of 1½% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their bids in advance.
- 14) Title does not pass until payment in full is received. NASCA reserves the right to await clearance of any check before making delivery.
- 15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by NASCA shall be borne by the defendant. The signer of a NASCA bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in Nassau County or New York City as NASCA alone shall elect. The participant in a NASCA auction also assumes both corporate and personal liability for unpaid auction bills.
- 16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
- 17) NASCA may reopen the bidding on a lot under the following circumstances: 1) NASCA has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
- 18) In the event of any dispute, the decision of the auctioneer is final.

### GUARANTEES AND RIGHTS OF RECOVERY

- 19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
- 20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. NASCA reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraphs 5 and 15 above.
- 21) All material in this catalog is guaranteed to be genuine unless otherwise described.
- 22) No lots may be returned by floor bidders except for non-authenticity.
- 23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or forty-five days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
- 24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (45 days after the sale), notify NASCA of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
- 25) In the event of litigation the plaintiff shall pay NASCA's legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the prime rate at Morgan Guaranty Trust Company from the date of actual disbursement.
- 26) The same protections applicable here to NASCA apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
- 27) NASCA assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
- 28) All accounts are payable to NASCA in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice. No payments will be received by NASCA in the form of credit cards for auction sales, catalogs or other monies due to NASCA.
- 29) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

### Condition Terminology for Paper

- Gem Unc.** (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.
- Choice Unc.** (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.
- Unc.** (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.
- Choice AU** (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.
- AU** (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.
- EF** (Extremely Fine) - An item which may, at first glance, look uncirculated but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.
- VF** (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.
- F** (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.
- VG** (Very Good) - A well circulated item, complete, unimpaired except for petty edge splits, pin holes, some surface splitting along heavy folds and soiling.
- Good** (Good) - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.
- Fair** - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.
- Poor** - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.
- A or Abt** (before a grade) - A shade below the grade it preceeds.
- Plus or +** (following a grade) - A shade better than the grade.
- VF-EF** (hyphen between grades) - The grade is about halfway between the two grades shown.
- VF/Good** (slash between two grades) - Face and back are two different grades. The grade preceeding the slash is for the face. The grade following is for the back.

### Condition Terminology for Coins

Circulated coins are graded according to the ANA guidelines. Numerical designations for uncirculated coins are according to generally accepted industry standards.

F-VF, fold split holes, POC. (\$60-90)  
The second bond was authorized by the Act of April 28, 1845 "to provide for the paying of the debts of insolvent Safety Fund Banks." In 1832, the state of New York created the "Safety Fund" which was a fund to redeem the notes of bankrupt banks. This system, a forerunner of the Federal Deposit Insurance Corporation, proved deficient in two regards. First, a very low tax was levied on the capital and not the bank's liabilities. Second, the act was so sloppily drawn that the courts interpreted it as requiring the redemption of deposits also, not just the notes as the legislature had intended. As the fund fell behind, over \$2 Million had to be lent it by the State until it caught prior to 1860.

- ### Famous Jurist's Father
- 1209 **Suit in the New York Supreme Court involving James Fisk**  
**Jr. vs. the Chicago, Rock Island and Pacific Railroad et al**  
(NY). 1868. Fisk's lawyer requested and Judge Albert Cardo-  
zo, N.Y., ordered that the Chicago, Rock Island representa-  
tive appear in chambers January 25, 1868 to show cause  
about violations of an injunction and about answering ques-  
tion. Quarto, holed at top, stained. (\$40-Up)  
Judge Cardozo was the father of Benjamin M. Cordozo, the U.S.  
Supreme Court jurist (1870-1938). There is no evidence to connect  
the elder judge with the Fisk-Gould-Tweed Scandals; indeed, the evi-  
dence here is that Fisk was having a fast one put over on him for a  
change.

A True Copy of the Will of Dr. Elias Boudinot's listing as his executors Richard Stockton (1764-1828), Treasurer of Princeton (1788), Trustee (1791-1828), U.S. Senator (1796-9). Congressman (1813-15), unsuccessful NJ Gov. Candidate (1801-4). Also listed is Boudinot's son of the same name, and Samuel Bayard (1767-1840), married the N.Y.C. Treasurer's daughter (Pintard), distinguished lawyer, Princeton Trustee, founder of the Princeton Theological Seminary, a NJ judge and legislator. The will is 42 pages of closely copied text. Starting with a profession of Christian faith, Boudinot got down to the business of dividing his estate, the Stocktons as in-laws being well remembered, along with his son and daughter. The elder Elias Boudinot (1740-1821), Attorney, Trustee of Princeton (1772-1821), Continental Congress, member of the (1777-84) and other Revolutionary bodies, President of the Congress (1783-4) and signer of the Peace Treaty with Britain, Director of the U.S. Mint (1795-1805), U.S. Congressman (1789-95), 1st President of the American Bible Society. The last change to the Will was made only months before his death. The copy is frail, holed where pulled from the wax seals.

Drawn on the "New County Court House Construction of" account (printed in red, left border). Blue, City Seal. Small border splits, chinks, and reverse soiling, otherwise Fine. The first we have ever seen!

1309 **Civil War "Draft Riot" Selection. 4 Pcs.**

(\$100-Up)

In March of 1863, the Union's first military draft was passed. Under its provisions military service could be avoided by paying \$300 or arranging for a substitute. Draftees would be chosen by lottery. On July 11th, the drawing of names for the draft began. By July 13th, organized anti-draft rioters began a reign of terror that paralyzed the City and resulted in the death of an estimated 1,200 people. About 100 buildings were burned. The riots resulted in legislation that provided \$300 bounties for joining the army, and established a fund that provided \$300 to "hardship" cases who needed the money to buy their way out of the draft. The items below all relate to the Civil War Draft and the riots.

1) Statement of Volunteer. Typeset form showing the County Bounty of \$300 as being paid. 1864. 2) Riot Damages distribution of account form. 1863. Includes a manuscript describing riot damages. 3) BROADWAY BANK County Treasurer's Warrant. 1867. "RIOT DAMAGES" in red at left. Blue City Seal. Signed by Mayor Hoffman (later Governor). EF, very light foxing. 4) A receipt for advertising proposals for \$200,000 of "RIOT DAMAGES INDEMNITY BONDS". The newspaper ad is attached.

(\$100-Up)

1) NEW YORK COUNTY BOND for the REPAYMENT of TAXES. 1867. Brilliant blue. City Hall & Eagle. Red embossed seal. Signed by John Hoffman, Mayor, and Richard ("Slippery Dick") Connolly. With Tweed's support, Hoffman became Governor, and was a possible Presidential candidate. Surprisingly, when Tweed testified about the "Ring's" activities, he stated that Hoffman was not involved. Connolly was alleged by Tweed to have received 20% of the proceeds of any Ring activity 2) NATIONAL BROADWAY BANK check. 1871. Signed by Connolly & A. Oakey Hall, Mayor. Known as "The Elegant One". His fine manners and good looks served as a diversion to the Ring's fraudulent activities. Hall was tried, but successfully defended himself against prosecution. 3) Similar to last. 1868. Made out to and endorsed by Peter B. Sweeney, County Treasurer. Sweeney was the "brains" of the outfit. His signature is quite scarce. The last two items both printed by New York Printing Co., of which Tweed was a part owner. 4) Warrant requisition form signed by W M Tweed, as Deputy Street Commissioner. 1867. Though his title does not sound imposing, it gave Tweed the one thing he really needed to successfully carry out his plans - the power to approve appropriations.

Please note that a 10% buyers charge will be added to each lot purchased on all purchases.

### Silver Dollars

- 2007 **1847. VG+.** A minor rim nick on the reverse at 10 o'clock.

- 2010 **1878-S. Choice Brilliant Uncirculated.**  
Crystal clear, highly reflective surfaces, but not prooflike, as are most 1878-S Morgans. There are traces of golden-orange toning around the obverse rim, and a crescent of golden orange on the reverse. Sharply struck. A scrape behind the nose keeps this example from achieving Gem status.

- 2015 **1875-CC Trade Dollar. Choice AU.**

At first glance, a coin that could easily sell as Uncirculated. There is a great deal of lustre still present, but a bit subdued. There are a few very minor rim nicks and contact marks in the fields, but none are particularly distracting. The head of this lovely Carson City Trade Dollar is a bit flat, though the rest of the coin is well struck.

One each of every mintmark and denomination issued in 1954. All are Choice BU except for the 1954-D Cent which has circular scratches on the obverse. All three nickels are golden brown. The 1954-S half dollar attractively toned and well struck for that issue.

### Commemorative Coinage

**2022 1893. Isabella Quarter. Choice AU.**

A haze of deep blue-grey toning subdues the original mint bloom just below the surface. There is a dark streak of oxidation near the word "DOL", and a rim scrape over the "AM" of "AMERICA".

**2023 1900. Lafayette Dollar. Choice BU and Well Struck. (Photo)**

The obverse is almost unimprovable! Highly-attractive concentric rings of blue, red and orange toning with just a hint of green circle both the obverse and reverse. Deeper blue & violet patches add to the rainbow-like reverse peripheral toning. A light patch of contact marks under "STATES" on the reverse.

**2024 1915. Panama Pacific Exposition Half Dollar. Choice BU. (Photo)**

A thin band of peripheral toning rings both the obverse and reverse of this lovely example. The rest of the light violet surfaces are amazingly clear and free from contact marks, while the strike is well above average. There are two very minor problems that keep it from the GEM category. The rim has a very slightly "pinched" appearance at 12:30 on the obverse and correspondingly on the reverse. In addition, there is a 4 mm planchet defect running diagonally from the base of the "T" in "UNITED".

2025 1918. Lincoln-Illinois. Gem Brilliant Unc. Well struck and remarkably free from contact marks. Deep original mint bloom beneath powdery swirls of chocolate brown and green-gold toning.

2026 1920. Maine. AU. A few digs in the field beneath "STATES".

2027 1920. Pilgrim. Brilliant Uncirculated. A pinhead-sized dig in the obverse field in front of the collar. Well above average lustre.

2028 1921. Pilgrim. Brilliant Uncirculated. Deep powdery charcoal & violet toning.

2029 1925. Lexington-Concord. Choice Brilliant Uncirculated. Blazing lustre beneath a very light mist of pink-violet toning. Well struck for this issue. There are a few light contact marks visible in the fields.

2030 1934. Boone Bicentennial. BU.

2031 1936. Albany. Lightly cleaned AU.

2032 1936. Bridgeport. Choice Brilliant Uncirculated. Traces of deep brown-violet outline the devices.

2033 1936. Cleveland. Choice Brilliant Uncirculated. Misty white-violet toning.

2034 1936. Long Island. Brilliant Uncirculated. 2 Pcs.

2035 1920. Maine. AU. A few digs in the field beneath "STATES".

2036 1921. Missouri. Choice AU. A great deal of frosty original mint bloom is present beneath moderately light brown-violet toning. Some carbon spots are visible on the face, along with several minute contact marks. Bold "railroad" rims on both sides.

2037 1921. Missouri 2 x 4. Brilliant Uncirculated. A well-struck example with satiny pristine fields beneath attractive mists of light grey-violet toning, attractively mottled with iridescent patches of pale gold. There are a few light pinscratches on the face, visible only under close inspection.

2038 1923. Monroe. Choice Brilliant Uncirculated. Well struck for this low-relief issue, and comparatively free from bagmarks, scratches and other distracting surface problems. Toned an attractive frosty pink & grey. There is one darker blue-grey patch over the last "A" in "AMERICA".

2039 1934. Texas. Brilliant Uncirculated.

2040 1935-S. San Diego. Gem Brilliant Uncirculated. Creamy white mint lustre accentuated by swirls and patches of violet & brown.

- 2041 **1936-D. San Diego. Choice Brilliant Uncirculated.** Almost as nice as the above lot, but quite not as much eye-appeal. The toning is far less accentuated.
- 2042 **1936-D. Rhode Island. Choice AU.** The obverse toned.
- 2043 **1936. Wisconsin. Brilliant Uncirculated.** The obverse ringed with peripheral orange toning. A light fingerprint visible at the center.
- 2044 **1936. York. Choice Brilliant Uncirculated.**  
The obverse devices silhouetted in golden-orange. There is a very minor edge nick at 1 o'clock on the reverse rim.
- 2045 **1937. Roanoke. Gem Brilliant Uncirculated.** Blazing white lustre and well struck.
- 2046 **1952-PDS Washington Carver Set. Brilliant Uncirculated.**  
The P-mint has a light pinscratch across the cheek. The S & D with patchy toning.
- 2047 **1953-PDS Washington Carver Set. Brilliant Uncirculated.**  
The D-mint has a green patch over "TRUST".

## US Gold Coins

### Gold Dollars

- 2050 **1851. EF-AU.** Flashes of peripheral golden-orange on both sides.
- 2051 **1852-O. EF.** A very pleasing example with about 25% original mint lustre. There is a heavy die crack through the uppermost star on the obverse.

#### 2052 1854. Choice AU. (Photo)

This lovely example exhibits frosty, highly reflective surfaces and a bright yellow color. The central portions of the coin are boldly struck both obverse and reverse. Along the obverse rim at about 10 o'clock there is a slightly flattened segment. The "I" in "AMERICA" is barely visible. Certainly one of the nicest Type II's we have offered in quite a while.

### Two and One Half Dollar Gold

- 2053 **1898. AU.** Bright golden yellow color and well struck. There is an area of surface abrasions near the obverse rim at about 7 o'clock.
- 2054 **1905. Choice AU.**
- 2055 **1909. EF-AU.** Shows evidence of very light cleaning.
- 2056 **1927. EF-AU.** There is a reddish patch near the eagle's wing tips.

### Three Dollar Gold

#### 2057 1855. EF. (Photo)

A sharply struck, very pleasing example of this very popular denomination. Traces of mint lustre are visible between the devices. A small dark patch of toning is directly in front of the lips. There is a short, light diagonal scrape on the neck.

### Five Dollar Gold

- 2058 **1882. Choice Brilliant Uncirculated.** Fully brilliant with a good deal of frostiness in the fields. There is a patch of fine contact marks in the fields just below the chin, and a light bagmark across the bridge of the nose.
- 2059 **1884-S. AU.** There is a light pinscratch starting between stars 3 & 4 and ending just before Liberty's eye. The obverse is has many hairline scratches while the reverse is comparatively clean.
- 2060 **1903-S. VF+.**
- 2061 **1905. AU.** Light yellow. Much of the original mint lustre is still present.
- 2062 **1909-D. EF.** The surfaces appear to be a bit dull, as if the coin was cleaned years ago. There is a light scratch in the field in front of the eagle's breast.
- 2063 **1912. EF.** A scratch is visible just behind the jaw.

### Ten Dollar Gold

- 2064 **1901. Choice AU.** At first glance this specimen appears to be Brilliant Uncirculated, but a myriad of fine contact marks in the obverse fields indicates light circulation. The coin exhibits its full mint bloom and a lovely bright yellow color. There is a light scratch running from the last "1" in the date to the last star.
- 2065 **1915. Brilliant Uncirculated.** A lovely example with frosty, light golden yellow surfaces. There is a light, barely distracting contact scrape on the cheekbone.

### Twenty Dollar Gold

- 2066 **1928. Choice Brilliant Uncirculated. (Photo)** Satiny, highly reflective, and remarkably clear surfaces. A very pleasing example.

Interestingly, these come in vinyl pouches, black with gold print, commemorating 50 years of the Central Bank.

- 2118 1976. 10 Pesos. Y-75a. Third Anniversary of the overthrow of President Allende. Mintage only 1000! Nice Proof. (Photo)  
(\*MB\$75; \$125-Up)

National arms/semi-nude winged angel (waist up). Krause describes this coin as commemorating the new government, but the inscription clearly refers to "liberation," i.e. government overthrow. Salvador Allende, an avowed socialist, was elected but overthrown after CIA-backed "destabilization." Allende was killed in the coup d'état. The subsequent controversy, and the military government's human rights record, have limited the marketability of this coin, so that few have reached foreign dealers and collectors.

Notes up to 20 Pesos are listed by Pick (we may now assume the existence of a 50, 100 and 500 Peso note of this issuer?) and all are listed as rare and unpriced. This beautiful and obviously little issued note is a clear candidate for a runaway price.

Issued under the Act of 1792 "for enlarging the powers and increasing the Funds of Yale-College". The 1792 Act brought the College, hitherto primarily an institution for producing ministers for the Congregational Church, under State control and to compensate the school for the loss of its endowment during the Revolution, the State levied a special tax, the "Commissioner's" being the six elected State legislators and officers. When the funds were raised, the tax ceased. The discontinuance of the tax was not occasioned by any religious policy change and the legislature did not disestablish the Congressional Church until a decade latter.

- 3554 **REAL ESTATE BANK OF THE STATE OF ARKANSAS (AR). 1839. 300 shs. Typeset. Unc, stained at the top, right edge and lower left corner.** (\$40-60)  
 The Realestate Bank was chartered on October 26, 1836 on the so-called Union Bank principle, whereby the subscribers to the \$2 1/4 million capital were to pledge realestate at its cash value at \$100 per share. (So, Fleetwood Hanks, the owner of these shares pledged realestate worth supposedly \$30,000). The state then issued 6% bonds to be sold to raise a real capital for the bank, 1530 bonds were sold to the Smithsonian Institution, 1000 bonds to the North American Trust and Banking Co. of N.Y. and 30 bonds to Richard M. Johnson, then U.S. Vice President. 500 more bonds were sold in violation of the law for less than par and the bank suspended specie payments in 1839. In 1841 the bank defaulted on the bonds issued by the state on its behalf and the legislature, in order to placate the anti-bank masses and the large realestate holders who didn't wish to pay heavier taxes, refused to meet the payment. In the meantime the bank was placed in the hands of Trustees for liquidation in order to evade lawsuits. The assets were squandered, payments being taken in the bank's depreciated or worthless paper while shareholders like Hanks escaped without having to pay anything. Efforts to take the assets away from the Trustees became inextricably embroiled in the Democratic Party faction feuds of the era.
